

PLAN B - BROKER EMAIL AUTOMATION SYSTEM

Business Proposal for Mor Logistics Manitoba Ltd

Prepared By: Ghani

Objective

Implement an automated broker outreach system that allows staff to send a simple WhatsApp message and automatically generate, personalize, send, and track broker emails using approved company templates.

Executive Summary

The proposed system will reduce repetitive manual work involved in broker outreach while maintaining professional communication standards. The automation will allow Mor Logistics to contact more brokers daily, improve response times, and maintain a centralized activity log for management review.

How The System Works

User Input

The user sends a WhatsApp message to the automation number containing broker information and lane details.

Example WhatsApp Message

Broker Mail: surinderpahil@amodispatch.ca
Lane: Laredo TX to Toronto ON
Date: June 3
Send mail to Surinder

Automation Workflow

WhatsApp → Claude AI → Gmail → Google Sheets → Confirmation Message

System Responsibilities

WhatsApp Business: Receives broker requests.
Claude AI: Selects and personalizes approved templates.
Gmail (sales@morlogistics.ca): Sends broker emails.
Google Sheets: Records all outreach activity.
Python Automation Engine: Connects and automates the entire process.

Software Stack

Software - Responsibility

WhatsApp Business - User input and confirmations

Claude AI - Template selection and personalization
